

## Circular

|                 |   |
|-----------------|---|
| <b>To:</b>      | Business Units, Consultants & Contractors           |
| <b>Subject:</b> | Submission Requirement for Final Shoring Inspection |
| <b>Our Ref</b>  | Circular-72444/2010/PR                              |
| <b>Date:</b>    | 31 <sup>st</sup> August 2010                        |

Continuing our stride to protect the beauty and view of the Emirate of Dubai, Structural Inspection Section of Trakhees – Civil Engineering Division has an additional requirement along with the submission of structural inspection request for Final Shoring Inspection.

Along with the submission to request for **100% Shoring inspection**, detailed undertaking letter from Client / Business Unit is to be submitted; confirming that the project would be constructed at least to the ground floor level with proper back filling as per requirement. **The request for the final shoring inspection will not be processed if the undertaking letter is not submitted along with the submission for the Specific Structural Inspection.**

Failure to comply with the above requirement would result in action taken against your company including any fines if applicable.

For any clarification or further details, kindly contact us: [inspection@trakhees.ae](mailto:inspection@trakhees.ae)

Yours faithfully,

Eng. Nazek Al  
Sabbagh
