E-mail		

- The Certification fee for registration has been paid and the receipt is attached herewith.
- We understand that the registration of the project with EHS should not be construed as an exercise leading to automatic certification and that the actual certification would be the outcome of successful compliance (documentary and Site level) that has to be demonstrated to EHS's satisfaction. We have also understood the disclaimer clause of the certification procedure.
- We confirm that we would follow the relevant client procedure for EHS Green building certification and would provide with all the information as would be required by EHS in the process of certification.
